

Delivery Hospitals for Eisner Health Patients

At Eisner Health we know that giving birth is one of the most important moments in life. Your care team will provide you with hospital information, childbirth preparation, doula referral, and maternity tour coordination to help you feel as prepared as possible before your delivery.

Planning for Birth:

- If you have had a C-section before, discuss with your clinical provider if you would like to try a vaginal birth for this pregnancy.
- If you would like to have a tubal ligation (“get your tubes tied”), ask your clinical provider about your options for that procedure.
- Ask your prenatal coordinator which hospital you should go to for your delivery based on your health plan.
- Learn about the different hospitals for delivery at <https://calhospitalcompare.org/>
